

## Digital Data and Mental Health Study

**Electronic Communication and Digital Data** 

## **Downloading and Donating Data**

Hello! This document provides an overview of how to safely and securely download and donate your data

> You can donate independently <u>or</u> work with a CDH researcher.

If you have any questions or concerns, please email digitalhealth@penn medicine.upenn.edu

### You will download AWARE Client V2 app on your Android

AWARE Client V2 securely and passively collects screen time activity and movement from your Android

Google's recent move to block accessibility services from being published in the Play Store has led to a temporary removal of AWARE's main client and plugins from the Play Store.

### The following is a workaround to install AWARE if you search for it in the Google Play store and it cannot be found.

**Step 1** Configure Phone for Installation of Apps Outside the Play Store Go to "Settings -> Apps & notifications -> Advanced -> Special app access -> Install unknown apps"

Select the app (your preferred internet browser) that you wish to grant permissions to install from unknown sources from.

**Step 2:** Click on the link below from your phone to download the AWARE V2 app

http://jenkins.awareframework.com/job/com.aware.phone/lastSuccessfulBuild/a rtifact/aware-phone/build/outputs/apk/release/aware-phone-armeabirelease.apk

Step 3: Open and install the AWARE V2 App

- 1. Install AWARE V2 by clicking "INSTALL"
- 2. Open the AWARE V2 app after installation is complete
- 3. Enable all permissions (press "Allow") as the messages appear

### **Step 4** You will see this screen. Go to Settings

Sensors Accelerometer Don't Allow OK Acceleration, including the force of gravity Activity Recognition 3 ["cycling"] Ambient Noise Ambient noise collected from a microphone on the device Barometer $\bigcirc$ Atomospheric air pressure Battery 88. $\approx$ Ø Ξi ESM Settings

**Step 7** Take a picture of this QR code

The QR code is a unique code for this study and prepopulates AWARE's data sources.

Step 8 Select 'Join'

**Step 9**: There may be more permissions requested depending on the study. Press "Allow" for each.

Step 10: Under 'Settings You will see this screen, please click 'Device Name'
